

How to Play Toss Game

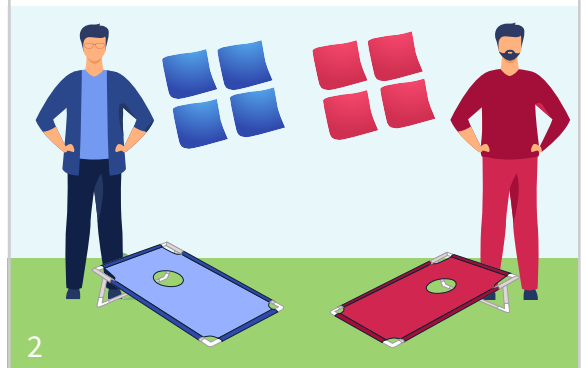

Set the boards between
27 ft and 45 ft apart

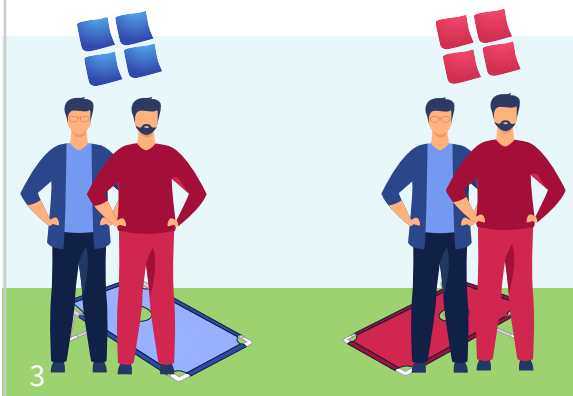

Singles = 4 bags/player

players stand at the same board and
throw to the opposite board

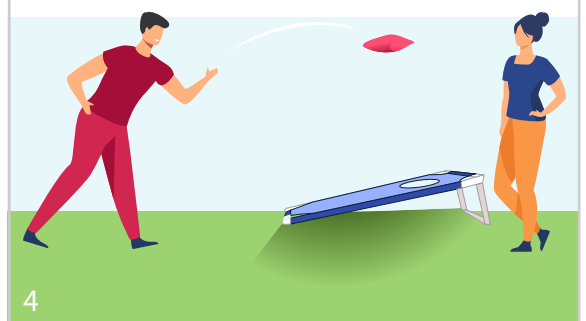

Doubles = 4 bags/team

one player from each team stands at
each board and they throw back and forth

Throw the bags at the
opposite board,
aiming for the hole

Score

For every bag that a player gets on the
board, they get one point.

For every bag that a player gets in the hole,
they get three points.

Add up each team's total and subtract the
lower number from the higher number.

The player with the higher score gets the
points that remain after the lower player's
score is subtracted.

$$8 - 4 = 4$$

A small number '5' is in the bottom left corner.

End the game when
someone ends a round
with exactly 21 points

The game ends when someone has 21
points at the end of a round.

If a round ends and a
player or team has over
21 points, they must go
back to 11 and the game
continues.

A small number '6' is in the bottom left corner.
