

Seating & Positioning

Cushion Sizing & Ordering Guide

Measurement Instructions

Cushion height

The height of a Permobil cushion without load and without possible edging or seat pan. *These measurements may also be found on product labels.*

Cushion width

Cushion width measured from edge to edge without load. *These measurements may also be found on product labels.*

Cushion depth

Cushion depth measured from edge to edge without load. *These measurements may also be found on product labels.*

Seat width

The appropriate seat width for using the cushion.

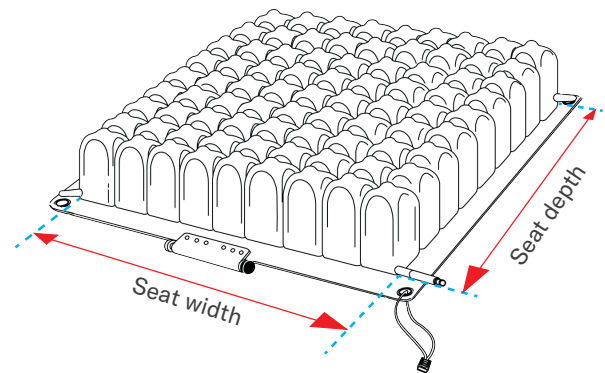

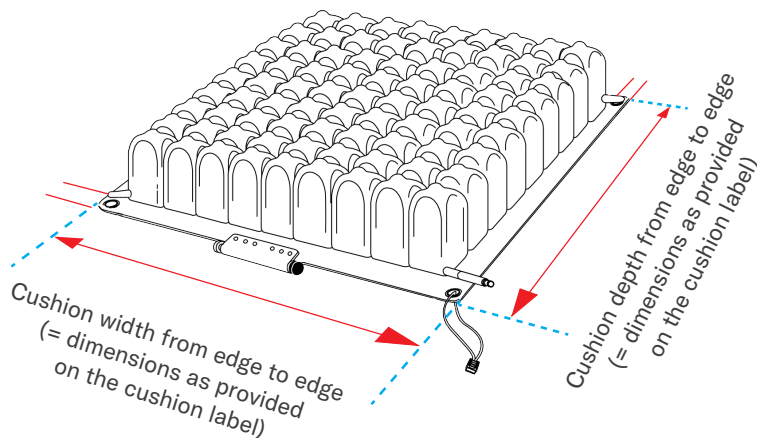

Seat depth

The appropriate seat depth for using the cushion.

Cushion width and depth

Seat width and depth

Note: Cushions with no weight limit must be sized correctly to the individual.

orders.roho@permobil.com

Select the correct size of ROHO cushion for your wheelchair

Step 1: Measure the wheelchair seat width and depth. *Note: Wheelchair manufacturers' published seat dimensions may vary.*

Step 2: Use your wheelchair seat dimensions and the below table to help you determine the number of cells in cushion width and in depth.

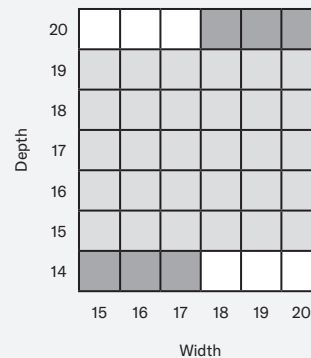

ROHO neoprene cushion sizing chart

Fits wheelchair size (in/cm)	Number of cells
10" (25.5 cm)	5
11" - 12" (28 cm - 30.5 cm)	6
13" (33 cm)	7
14" - 15" (35.5 cm - 38 cm)	8
16" - 17" (40.5 cm - 43 cm)	9
18" - 19" (45.5 cm - 48 cm)	10
20" - 21" (51 cm - 53.5 cm)	11
22" (56 cm)	12
23" - 24" (58.5 cm - 61 cm)	13
25" (63.5 cm)	14
26" - 27" (66 cm - 68.5 cm)	15

Note: Availability of cushion sizes varies by model. Sizes listed represent wheelchair size. Most ROHO cushions can be made custom (multiple valves, deleted cells, cutouts, etc.)

Additional sizes for products may be available. Visit permobil.com or contact customer support for more information.
